But this whole question is one of indi-viduals. We all wish that to the one indi-viduals most concerned, the Jubileo may be most antifactory. And we all know, as do pretty nearly all houses men in the civi-lised world (which does not, of course, in-clude all editors), that the only way to make it so, is for everyone to see that be and she attain all the fulness of Jubileo

blassing.
That means a hot Jubileo! There are plenty of cold ones in the world, where, in spite of all appearance of enthusiases, all appearance of enthusiases, all the distriction, for the stating, and speechifying, everybody known that there is no lever at all felt or shown. But here, by the grace of God, is to be a hot Jubileo, in which the great feature is to be the raising of the largest possible number of persons to a red-hot condition of love to everybody else.

what is your part in the matter going to be! If you are red-hot, you will certainly have me at any with the poor, little critice, who will peek at every proposal made as they come, 'not you will push the whole thing with all the enemy you can. But if you are not red-hot already, what

The experience of the last few days has greatly encouraged me on this subject. Right up to the Russian frontier, miles away from our nearest corps. I have found how general and how deep is the understanding of our essential purpose, and the dread of his accomplishment.

It is a positive embarrasment to us that anybody who dases to take our Wan Car is at once on much identified with us by everybody that we cannot easily resist his entrasty for just one meeting to help him to gather a nucleus of supporters; and yet, on the other hand, the fanatical hatrod against us on the part of all the combined forces of unbellef and evil make every fresh step bear testimony to the reality of our power, and of the enemy's power, too. All this makes me certain that it is utterly impossible to exaggerate the importance of this Jubiles to the world. Robody can possibly conceive of the extent to which God has already honored and used the General and the Army, or the extent to which it is hated and dreaded by hell and hell's allies.

Keep blowing, and no matter how little the handful of people upon whom plenty of the heavenly breeze comes—is made to come, that is—you will keep up heat enough to melt steel heaves. Do not let us, like the Christian world, be confused and paralysed about the shares of Divine and human power. The last fifty years story is one vast demonstration of the extent to which God has placed the heavenly breezes at the disposal of one vigorous arm.

RY MAJOR READ.

On Saturday night, the barracks at Port Arthur was packed to witness the presen-tation of colors. What free, jolly, happy folks they are. We felt at home.

Mrs. Road presented the brand new flag. Its colors were explained, and evidently many were ignorant so to the proper nearing of the tri-colored banner. Eagerly they listened, and glad they looked, as Captain Miner received the flag on behalf of the corps. Both big and little drums were presented to the corps by kind friends and soldiers.

We had heard a lot about the big kneedrills at Poar Arthur. We expected a crowd on this special Sunday morning. On opening the barracks door, we found the the seats nearly full. Over one hundred and fifty had gathered for early spiritual levalates. 1:31 How's that, Winnipeg? With such a crowd, at such a spiritual table, filled with such spiritual distince, we, of course, partock, and came away strengthened. Poar Arthure CHALERGER THE WHOLE DOMINION IN THIS BESTRUT.

At our Fort William Holiness meeting, five strong men knelt at the Cross for deliverance from inbred siz. One's mouth had been gagged by jihe use tokeco. Pelling a dirty "plug" out of his pocket, he told Mrs. Read to burn it, and promised to bring his dirty pipe, and burn that, in the afternoon, which he did. Another's temper had overcome him. God gave him perfect love. The other three testified to complete deliverance.

The Fort William Town Hall had been granted free of cost for the atternoon and night meeting. It was well filled in the afternoon. Numbers of people, who had never strended an Army meeting, came to see and hear, and they enjoyed it, too. Captain Hayes passed the colors over to her first convert, who is to act as color-bearer, and he feels it a privilege to do so.

Brother Brown kindly drove us back to Put Arthur for the night meeting, while lifts. Read remained at "the Fort." At such place the town hall was literally packed to axcess, the sistes being falled up by those who could not find scate.

Two knelt at the stage in the night meeting at Port Arthur, where the place was liverally packed. At each place the people and a pienteons supply of food to the officers' quarters. A new barracks is urgently needed at both places, and no doubt ere many months each corps will be worshipping under their own vine and fig-tree.

Brothers Deadman, Bowman and their rives are good friends, and there are many others who are helping along the work. The Mayor of Fort William has offered us a piece of land free. As we were leaving the depot for Winnipeg a lady seet along a basket-full of good provisions for use during the long night journey.

NOTES.

While at Port Arthur a train full of Chinamen went through on their way to the States. We understand there were about 400 all told.

Reached Winnipeg at 8 a.m. April 17th, and were met by Ensign Rawling, Captains Shan, Lowry, and Green.

The Commandant, having returned from the North-West, resumed command of the Friday evening meetings, at Elm Street Y.W.C.A Hall, next day, and conducted a first-rate, lively meeting, the finale of which was crowned with ten persons publicly seeking the forgiveness of sin, or the sec-ond blessing.

"That's the thing that has been my difficulty," said a man in working attire, as he drew from his pocket a huge clay

"Give it up, then, and trust in God for the victory," we replied. He did so.

The Eusign said at one time she had craved for holines, but when she came to the end of herself and yielded up every selfish desire, the Lord came and sanctified her, and now "I praise Him for a holy heart and life; to do His will is heaven."

Soldiers and officers had come in from all the surrounding towns and villages, and in addition to them, it is estimated that about 4,000 civilians were present, either from sympathy or curiotity. After the usual Salvation greating, in which the lung power of the Army soldier is nower by any means reserved, a large and gwas formed at the open space on Loytain Lette Lowry, who is stationed in this city, publicly welcomed the Commandant to Winniper Commandant. Booth responded in a short, but eloquent speech, saying in effect that he was gled to be in Winniper gasin, so he had very pleasant remembrance of his last with. Captains McGill and Robert Smith came into the Brandon Jubilee. These are old and well-tried veterans, having done good service as cutriders. Having read so much in the Cay about their past exploits, we were glad to see them. Their sun-burnt faces tell a tale.

It is a fact that the Mayer of Portage la Prairis, as also Dr. Rutherford and Mr. Watsen, the Minister for Public Works, greatly enjoyed themselves in that afternoon meeting led by the Commandant. They took part, too. There was a day when the dector did not care for the Army dram. It fright-ened his horse so much, but all this has changed now.

Then the Mayor, in his meat little speech, promised to do all he could for the Army; while the Minister for Public Works declared that the Government should certainly come to the Army's aid in building a new barracks at Portage. In his inimitable, happy way, the Commandant made all feel at home, and after this meeting met the sergeants in reference to the proposed building scheme.

At Portage is Prairie, where a mid-day meeting was held, Doctor Rutherford, the Mayor, and the Minister of Public Works spake kindly words in favor of the Army.

The Commandant explained our relationship with the new building scheme; after which he met the sengeants for the same purpose, and then we boarded the cars for Winnipeg to spend the week-end.

The monster C. P. R. depot platform was filled with hundreds of human beings, one huge mass of humanity, to do henor and welcome the son of the founder of the Salvation Army.

A triumphant shout and bursts of applause rent the air as the Commandant steeped from the car and mounted a trolley, which was to serve as a pulpit.

He thanked the officers, soldiers, and friends for such a welcome.

Headed by the fine brass band a long march was enjoyed previous to the holiness battle. At this meeting about six hundred had met together, and though extremely fatigued, the Commandant took hold with energy and life. Brigadier Holland, in his soul-stirring talk, advised all present who had not done so, to go to their own funeral. mercy. This was encouraging. Still, the Commandant cheered and encouraged. Still the officers fished. Still the officers project. Still the soldiers prayed. Soon another was found at the Cross, then another and another, until SEVEN PARCHOUS SOURS knelt for salvation.

A real Newfoundiand jollification followed in which our new Provincial Officer took a prominent part, showing how they did it in Newfoundland. He sung also about "Grumbling Street," and after, the Commandant gave some illustrations of the strength and power there is in unity of action. The benediction was pronounced about 11 p.m.

At the wharf we were met by the soldiers of Nansimo, and headed by the brass band, after a short open-air which the Commandant led, we proceeded to the barracks (by the way this fathe first Army building on the Coast). It is a credit to the city. The meeting started in with a lively song, ithe crowd taking up the singing beautily. The Commandant explained the nature of his visit to the Coast: "I come, said the Commandant, on matters of great import to the Army's interest in business matters; also the arranging of

The meeting was truly enjoyable, lively and free, the Commandant closing with an

carnest appeal to the unconverted, followed by a Soldiers' Council, in which the Com-mandant laid upon the hearts of all present the responsibilities of soul-eaving and the necessity for a mighty revival in Nasasimo. This, we believe, will surely come. Next morning we took the train for Vic-toria, a distance of some seventy miles through a very

Arriving at Victoria we were met by the officers, who took us to the quarters. In pute of the heavy rain that evening the hall was erowded with a jorial, goodnatured crowd. The Commandant was in his element. It was a typical Army meeting, so free from stiffness or conventionable.

The coldiers sang and clapped their hands

to the freedom of the speakers. The Commandant spoke on the matter of building a

After Brigadier Holland, Adjutant and Brigadier Holland, Adjutant and Armibald had spoken, the Commandant closed the meeting, leaving that evening, on the "Premier," for New Westminster.

On our arrival there we were greeted by

privilege of being present at these meetings.

The open-air was one of the most beautiful meetings we have ever been in. The hearness was crowded, and God gave the Commandant a special degree of liberty. This meeting had to be brought to a close in order to allow us time to catch the last car for Vancouver, where we arrived full of faith for Sunday's battle.

Fifty-two coldiers rallied for knee-drill. We wound up this meeting with two souls in the fountain. In the holiness meeting there were four more. In the afternoon and evening meetings the crowds were tremendous, and at the close of the night meeting two others sought deliverance, making a hopp flaish to the Commandant's visit to the Coast.

OFFICE OF THE WAR CRY. Thursday, May S, 1895.

WELCOME, COMMANDART.

The scene enacted at the Commandant's welcome home, at Parkdale, is a significant fact in the history of our leader here. It is of no small importance that all the men and wemen who are immediately associated with Canada's chief officer are so thoroughly one with him as the expressions of affection and loyalty given in that happy homewelcome indicate.

MRS. BOOTH AT OSHAWA.

The visit of Mrs. Booth to Oshawa became the opportunity for an almost unique expression of loyalty to the unique expression of loyalty to the Army. Listening in the soldiers' asably to the tremendous testimo of God's saving grace through the Army's instrumentality done in that part of the country, the most prejudiced would be bound to admit that "There is the finger of God." And no person either officers or soldiers, in any part of the world, ever could express them-selves more definitely and affectionately towards the Army than did the com rades there. Mrs. Booth was deeply touched with the intense sincerity and holy simplicity of the testimonies, and came away from Cahawa with a great inspiration and enlarged desire to seek the very highest welfare of the people magst whom God has given her such a responsible position.

A TRIUMPH.

The Commandant's North-West trip s been a triumphant tour; God's blessing has been manifested in the cleading tones of the penitent, the adant's heart has been strengthened by the outspoken loyalty, and unrestrained enthusiasm of the troops while the general public interest taken in the Comm andant's movemts, and the progress and prospects of the Salvation Army, has been quite absorbing.

ALL-ROUND ADVANCE.

A sweeping glance across the whole Canadian and Newfoundland battlefield, reveals a most encouraging spectacle. The reports from each fort ring with the enthusiasm of victory. Major Morris, in Newfoundland, and Major Read, in Manitoba, have been royally received; that Brigadier Margetts has been treated ditto, goes without saying. Glancing right through from the constantly occupied penitent-forms throughthe field, to the administration chair at Headquarters, it is apparent that the pulsating whole has never been so much en rapport, and the prospects for advance never so fair and inspiring since the Commandant's entry in this field. The WAR CRY wishes the Commandant, and every individual taking part in this glorious fight, God-speed.

BRITAIN'S JUBILEE.

The British wing of the one Salvation Army has opened it. Jubilee Cam-paign with some phenomenal victories. In the two days of salvation at Queen's Hall, London, thousands in vain sought admission, on account of the the congested hall, and the Army's ability to organize a big battle and victory for God, was fully exhibited, while the General viewed the triumphant spectacle of 517 seekers for pardon and parity. Concerning this scene, the latest English War Cry says:

"To may that the Two Days brei ord, is to convey an extremely bare idea of magnificent spirit that characterised the magnificent spirit that characterised throughout each of the great meetings. Agest allogether from the special personal interest attaching to the occasion of the Gen interest attaching to the occasion of the Gen-eral's birthday, the remarkable conviction which held the crowds all but appll-bound, and resulted in such an unprecedented spiri-tual reaping, was the theme of general remark. So far so the Army's meetings in it are concerned, the Queen's Hall has emphatically the seal of Divine blessing.

A PROPER BIRTHDAY.

The Queen's Hall scene is the way to ep a birthday. To stand victorious in Jehovah's power on such a battlefield. as did the General on his 65th birthday, is infinitely more noble than to have planned a wholesale carnage in worldly warfare, and leave behind a field of gaping, bloody wounds, and agonizing groans. Let the whole Army raise their peans of thanksgiving to God for so glorious a spectacle and so million leader

AND CANADA.

" And what is Canada going to do!" will be asked. For a complete answer to this question, we must refer to readers to next week's issue, but we may say that the Commandant has a altogether exceptional and unique Juli lee program that will place Canada free rank with anything in creation in this line. As the Commandant unfolded briefly at his Thursday night home welcome a few of his marvellous plan for the Canadian Jubilee Advance, re were amazed and delighted. The Conmandant has a new scheme for every year of the Jubilee, with the exception of the last, and there is a probability that the fiftieth will be forthern Let us take an universal bandch comrades, and with a ringing ballship run at the enemy.

My i winst could we not do with mere such fellows in the Salvation Army I Sudbury, Sault Ste. Maria, North Bay, Rat Portage, and other smaller places. Why here is a whole district growing up. This part deserves our attention. It would be a good Pissers Province on a small scale. Wanted, some officers to tackle it, and a leader who can be trusted to go shead without going to rain. Whom shall I small? Great opportunities, they say, out here. Take Rat Portage, the centre of a new and growing community. Raison River, Christophare, cales, navagables waters surrecunded by richly timbered hades growing out of firtille sail. Settlers pouring in. Round the lakes quite a little colony. N. Schwation Army, Wanted, two men and a host; someone willing to do the apoctolic, and fight for God and souls under exactly similar circumsum to these that surround the lamber men, who fight for a Riving. The whole community could be set ablace, scale arring for mercy, outposts of All waiting for officers, while hundreds of our young people healtste. Oh, God! Want shall their answer be?

Winnipeg at last. A great city; all the growth of only ion years. Just passing through, and Everything in years. Just passing through, and yet a crowd of loyal soldiers at the dept to grip our hands and fire a veiley. Get off. Fell into the arms of Masser. Rawling and Shae. Hauled up to the Provincial Headquarters for breakfast. Seized midway by a reporter; sainted by accoler in the passage. "All right, one at once," and L. Manitoba! Immense, but very flat. Bich, but very uninteresting. I've crossed it four times. Rich,
But Flat. Once in munder different circumstances. Once in summer—a see of land! Once in winter-the Arctic Ocean! Once in spring—a see of water! Every time, behold!—it was very flat! Most fertile plains in the world. Boll as black as lak. Years of nutriment. Easy, cheap farming. Flaset, best colored, best priced wheat in the market. Every facility for farming to make money. All I admit; but still, behold, it is very flat! Life after all is hardly so interesting on a huge frying pas, bottom side up. Of course, much depeads on what you're is four Life for money-making alone, couldn't perhaps be better speat than in Manitoba; but life is more than a rust for the cors market, and there are other considerations than those of the thrashing machine and steam plough. A hill, a dole, a forcet, a land-noaps, a rolling torrent, and verdant valley, are worth a little after all. Nevertheless, this country of the land-ocean as bound to thrive. It is too rich to be rejected.

Manitoba, Assimbles, Alberta. On we go. We leave behind us provinces as hig as whole nations of the Old World. All through the lands, estimated the first trail through the night. On —post after post, station after station, bridge after bridge, tank after tank, settlement after estitement, mile after mile, incoment, persistent, unwavering. A thousand miles to correct. A thousand miles to come. Two thousand passed, and yet another ahead! Monstrous it is this world should be servony, and yet within it so great a crush. God has given His race a legacy of land immessurable to live on, while it builds for itself, garrets and alume to eithe in.

His rice a legacy of land immeasurable to live on, while it builds for itself, garrets and alume to stiffs in.

It grows wearisome. Business becomes more and more difficult. One's brain seems to have taken on wheels without a steering-gear. We grow imp and flabby. We look around for life. Oh, for a wolf, a bear, a buffale, a loopard, a tiger, a lion, an elephant; any mortal thing that moves on lega, can roor, show its teeth. But there is nought but the eternal gopher, that little mixture of a rat, a squirrel, and a weated, comes forth at every turn to gaze at us. The gopher is the pest of the North-West farmer. It is the obselvint, provident, little creature going. By-and-bye, we reach the ranching. Hards of forces, and carea, and sheep, show up. Then Calgary, and in the distance, at last, the heavy heads of the Rockies.

Can't attempt only description of the mountains. One of these things too grand and too stupendous to spoil by tinkering. Time to think and pray is essential to the description of God Almighty's footstooks along this earth. I will do my best at it some future occasion; meanwhile, let it suffice to any they were sublime. My measulous in crossing them were, nevertheless, anything but pleasant. The track can never be very safe, especially in winter. Heard jout as we entered "The Gap" a train had got derailed the night before; general amashiru. The news warm't over-concoling. All sorts of things happen; landing, monw-lides, and avalanches. In some place the canena seem to open their java for swallowing you; in others, massive rocks, weighing thousands of tons, soom to any, "Pane on quickly or I'll bury you." I always get amashed half a docen lince in imagination when crossing these mountains at sight.

others, measive rocks, weighing thousands of tone, seem to age, "Pam on quickly or I'll bury you." I always get smaashed half a dozen times in imagination when crossing these mountains at night.

Up the grade, we go slower and alover; till the engine can hardly held against the backward tanging of the cars. At night, in a semi-dazed condition, we can hardly tell whether we are going up or down, back or frent; sometimes it feels backwards. Now the engine seems to have less ther grip of the rails, and we appear to be going abaft. We get ready to be huried at the rate of a hundred miles an hour town the incline! Ne, we are still climbing. We reach the nummit, and now-down! Slow at first—a feeling of setty! Inster—a feeling of dread; faster—a sense of doom! faster—a committed of one's spirit to God; and then—it is over, and we're running on, alive after all.

The screech of the engine produces an unearthly sound. The mountains acem full of a we're the company of the mash i faster—a committed of one's spirit to God; and then—it is over, and we're running on, alive after all.

"One secret of the success of the Salva-tion Army has been the definiteness of its religious teaching. Very few leading bandsmen had turned up, and those who wure present voted it would be absurd to attempt to play. It looked as if the march would be "as slow

as a funeral," when the following brilliant idea struck Lieutenant Stephens (now Staff-Captain and editor of the Australian Cry) and was at once adopted. Why not have a funeral for a change? The Color-Sergeant was directed to reverse the standard, the handsmen marched with instruments under their arms, except the drumment, who, with loosened parchment, tolled out a doleful slow-step; the timbrels sounded not a jungle, and make soldiers all walked along in perfect eilence, eyee cast on the ground and caps in hand. To say it caused a sensation in the crowded main street is nothing. People rushed out of the shops to see what was up with the Army. Some of them killed the General right off; others said it was the former Captain, who was known to have been on rest through illness, that was dead; but not feeling certain about it, they followed by hundreds to the barracks, and we trust enjoyed the meeting.

THE TRUE WISDOM.

BY STAFF-CAPTAIN FRY.

PART R.

In fact the true child of God will experience that this will follow as a natural consequence. The first cry of the newborn soul will be, "Lord, what wouldet Thou have me to do?" He will look around him with eyes of pity at the thousands who are going on in ain and rebellion against. God, hastening to everiasting punishment, "where the smoke of their torment ascendeth up for ever and ever," where their worm disth not and the fire is not quenched."

He will also see that Satan hases blinded

"where their worm dieth not and the are is not quenched."

He will also see that Satan has so blinded the minds of them who believe not, that, though they are hastening on to such a doom, they are perfectly unconcerned.

He will also know that life is but the probation, the time given to man to prepare for eternity, that when death strikes a sinner the declaration is fulfilled. "He that is nutsel tel him be unjust still!" He will be encouraged by the thought that "a measure of the Spirit is given to every man to profit withal," and that every person he speaks to is possessed of a conscience which bears witness to the truth.

In view of these facts he will see that the only aim worth living for is to secure the salvation of as great a number of the lost around as possible; that other things are only of any real value as they tend to the accomplishment of this object. He will see that true wisdom consists in turning many to righteousness.

Now, my comrades, is this the way you look at things? Has this experience ever been yours? Oh, if not, I besecch you to examine your state, and get to know whether you ever have been seved. If your salvation has never had the effect upon you that it had on the woman of Samaria, leading her to "leave her waterpot," and hasten back to the city with the message, "Come, see a Man that told me all things that ever I did; is not this the Christ?" you have great reason to doubt whether it is of the right quality or not. Oh, be not deceived! The devil is crer ready to persuade a soul that it has been converted when it has not. He deals in counterfeits. Give God no rest till your are building on the Rock that will stand the test of time, death and eternity.

But are you amongst the number who have once had this experience and lest is? Examestly she pressed home upon the fact that only those who had washed their codes in the blood of the Lamb could gast an interest there.

In describing heaven she said that, after all, the glory, the joy, and song were only the continuation of what we enjoyed down here, only fuller, grander, heighter; the first impulse of the renewed soul is to shout glory, or at least it was in her case.

Though we lessie officers have not as yet been able, either by force or example, or other means, to persuade our new Mother into joining us in praising the Lord in the dance, yet we felt as she speke that at least ahe was no atranger to the glory. TUNE-No, never alone.

Comrades, this heart-bearching question

Has come to me o've and o've;

When all is sunshine and gladaese,
And when darkest billows do rear,
A voice within me is saying—

"Cen Jesus count upon you?

In the darkness as well as the sunshine,
Ob, will you prove faithful and true?"

Yes, Jesus can count upon me, Yes, Jesus can count upon me : an count upon me being faithful, Yes, count upon me.

When I see others formke Him,
E'en those who have fought by my side,
When I hear others dony Him—
The Saviour in Whom I confide,
Then does that voice gently whapper—
"Can Jesus count upon you?
Should the world formke and deny Him,
Oh, will you prove faithful and true?"

What, though the cross may be heavy!
What though the way appear rough!
Josus has treed is before me,
And, ch, should that not be enough?
So, when that voice gently whispers
"Can Jesus count on you!"
I'll gladly look up and assure Him
That I will be faithful and true.
